

## Cruz – Witkowski – Zoubek

Ivann Cruz – guitar, effects  
Philip Zoubek – (prepared piano), synthesizer  
Marcin Witkowski – extended drums, electronics

Prepared piano, primed guitar, extended drums and electronics.

Since three years of sonic explorations, ambient textures and unstable harmonies, the trio is collectively creating improvised music by deconstructing their instruments in an electro acoustic setting. Their music is driven by the idea of building a meta instrument, an ego-less creative process to open up new soundworlds and to explore unheard musical territories.

Active on the European improvised music scene, Philip Zoubek, Ivann Cruz and Marcin Witkowski decided to reactivate their collaboration by releasing this first album on the French label „Circum Disc“.

Press:

*"Fifty-five minutes of lag that radically take us away from urban turmoil."*

Guy Sitruk (jazzaparis)

*"Radium is a complex album whose charm is not only deliciously noisy. There is a narrative and a movement that take us far, on a planet with rare oxygen and hostile elements. We go back there with enthusiasm!"*

Franpi Barriaux – CitizenJazz

"Each of the nine improvisations underlines this was a fruitful and inspired collaboration. A more than an excellent album of very exciting and suspenseful music !"

*DM- Vital Weekly*
